

## Technical Rider for “Tina & Lena”

(9.30.05)

In most cases Tina & Lena provide own sound system. Power requirement is (1) 110 electrical outlet or extension outlet.

However, in the event it is determined by Tina & Lena and the event coordinator that there is an advantage to use the House sound system or that of a contracted professional sound company, technical requirements are underlined items:

- Microphone Inputs:
  - our 2 cordless headsets are wired into a rack and require 2 XLR-low Z input jacks
  - our (1) cordless handheld mic on our boom stand requires a 1/4” input jack
- Instrument Inputs:
  - our (1) Guitar w/DI & remote pick up requires (1) XLR-low Z input jack
  - our (1) Keyboard w/DI requires (1) XLR-low Z input jack
  - our (1) instrument mic on our boom stand requires (1) XLR-low Z input jack
- Speakers: (2) floor monitor speakers & appropriate speakers for the house
- Amplifier: Mackie 808M FR Series, 2 x 600 watts, or similar

If we are flying commercially we will need to personally discuss our instrument and sound needs with the event coordinator.

If necessary, refer to Equipment List on following page.
